Company profile

RAPHAEL VALVES INDUSTRIES LTD., founded in 1949 is the first Israeli manufacturer of quality valves. Since then RAPHAEL is leading the Israeli valve industry in its wide product range, and its innovative products. RAPHAEL is a member of Tyco International Ltd. group of companies, the world's largest manufacturer, distributor and installer of flow control equipment.

All products are subject to stringent quality control procedures and pass strict pressure tests in the company's testing plant during manufacture and assembly. RAPHAEL's quality management system is ISO 9001 certified.

RAPHAEL's professional work-force and technical engineering team, which are one of the company's major assets, are all highly skilled, trained and experienced in their respective fields. RAPHAEL's R&D Department constantly strives to introduce new and innovative products.

The winning combination of state-of-the-art technology and accumulated know-how enables RAPHAEL to offer its customers various solutions for different needs in a wide range of areas, including short run production, large diameter articles and high pressure products.

Year of establishment: 1949

No. of employees: 110
